

# July -Jubilee Project Update

Construction activities are continuing for the Jubilee Project. The contractor is working with CenterPoint Energy and Fort Bend MUD on approvals and routing of water and electrical utilities to the new facilities. Foundation preparation and concrete pouring for the Jubilee hall will occur in the next few weeks. Steel structure for the gymnasium is expected towards the end of August.

Please continue to support the project financially through new donations and by paying off your pledges. Also, please participate in the personal loan initiative which would help us in reducing the loan amount that we have to borrow from the bank at high interest rate. Above all, please remember the project in your daily prayers.
