

May -Jubilee Project Update

Construction activities for the Jubilee Project are progressing well per schedule. After completing site security and fencing, the contractor has focused on site preparations. Construction LTD has procured their agreements with subcontractors. Plumbing and electrical contractors have been onsite doing discovery work against the permitted plans so that they meet the design requirements. Site preparation including select fill has been completed for the gymnasium. Demolition and ground preparation for the Jubilee Hall extension will be the next focus.

Please continue to support the project through new donations and by paying off your pledges. Also, please participate in the personal loan initiative which would help us in reducing the loan amount that we have to borrow from the bank at high interest rate.

Above all, please remember the project in your daily prayers.
